

## **GIS Analysts - Entry Level**

Spatial Data Integrations, Inc. (SDI), A leading geospatial firm since 1994; delivering quality services to government agencies has employment opportunities for entry level GIS Analysts in its Louisville, KY office.

Analysts will prepare and complete imagery assignments for monoscopic feature extraction. They will work with a variety of processes within GIS and feature extraction software to collect features using photo interpretation skills. The Analyst will complete feature extraction, editing, attribution, QC and processing tasks.

We are seeking persons with a Bachelor's degree in GIS, Geography or a related field. Experience with ArcInfo or ArcGIS course work is required. Photo interpretation and/or PYTHON knowledge and/or experience preferred. Candidates with an equivalent combination of education and experience will be considered. Applicants should exhibit initiative and resourcefulness on a day-to-day basis. This is a full time position. U.S. citizenship required. Employment is contingent on passing a background check.

Please submit resume and letter of introduction to [careers@sdimaps.com](mailto:careers@sdimaps.com) for consideration.

SDI is an EEO employer.
